## Agrivoltaics Scenarios

*The Pros and Cons of Using Land for Agricultural and Energy Production*

1. What state is your scenario in? \_\_\_\_\_
2. What crop or animal are you producing? \_\_\_\_\_
3. Read the information on your farm/ranch. As a group, discuss 1-2 pros and cons for each section below and record:

Potential Impacts	PROS	CONS
<b>Product</b> How would adding solar panels to your farm/ranch impact your crops/animals?		
<b>Economics</b> \$\$\$ What financial impacts are there to your farm/ranch? Will it bring in more money or cost more?		
<b>People</b> How will you and your community be impacted?		

4. Based on your pros and cons list, would you install solar panels on your ranch/farm? (circle one):

*I WOULD install the solar panels.*

*I WOULD NOT install the solar panels.*

*I am still undecided.*

Please explain your reason. If undecided, explain what information you need to know to help you decide.
